UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN FRANCISCO DIVISION
MOTION FOR REVIEW OF DISMISSAL ESTABLISH LAWS

Honorable Judge William H. Alsup:

I would again ask you to reconsider your decision of my request for Motion For Review Of Dismissal because of established law because not only was the hearing for January 27, 2009 removed from Magistrate Maria-Elena James scheduled calendar she used coercion and invoked the term "Let God Take Care Of It or Handle It" in that effect which I believe crossed the line prohibiting church and state or using God in any legal discussions sending me into a anxiety/panic attack, I felt intimidated by her forcefulness and actions toward me and taken advantage of by the Court and court officials who suppose to stand for justice for all, she wasn't abreast on the case nor had any of the evidence. I feel she was partial towards the defendants. I had never been in such a setting, didn't know what to expect or what would happen next all I know the preceding wasn't legal or fair.

Your Honor I would like for your decision to be vacated and the case put on calendar before a jury or allow myself and the defendant to continue in negotiations for a fair outcome accordingly to the evidence. I feel that I was not given my due process of the law or the court. I want to apologize to you if you felt that I disrespected you or the court by rushing you to respond to my letters with more that one request I didn't want to forget what I was asking you for and I was trying to put my case together. I wasn't privileged to have an office staff to work on this case as atty. Abraham Simmons does. Sir I've only told the truth to the court and Your Honor I was injured in that extreme toxic environment where my civil rights were violated. I was shot with rubber bands and my hand shoved into a metal casing when I complained of assaults in retaliation I was terminated without just cause.
